PROFILE SUMMARY

I am a recent graduate with a degree in Bachelor of Engineering (B.E.) in Information Technology from PUSSGRC Hoshiarpur. Throughout my academic journey, I have developed a strong passion for web development, particularly focusing on web technologies. I have always been fascinated by the power of the web to create interactive and visually appealing user experiences.

PERSONAL PROJECTS

Food_Delivery_App

03/24 - 04/24

Project Demo

- Developed a robust food delivery application using the MERN stack (MongoDB, Express.js, React, Node.js). The app featured user authentication, order tracking, and an intuitive UI for seamless user experience.
- Using media queries, Flexbox, and Grid layouts to ensure compatibility across various devices and screen sizes. Implemented APIs for efficient data handling and integrated secure payment gateways, contributing to an overall increase in user engagement and transaction security.

HTML & CSS landing pages

01/2024-02/2024

Project Demo

- Successfully designed and implemented a basic landing page, Gained practical experience with HTML5 and CSS3.
- Demonstrated ability to create a visually appealing web page, It showcases fundamental web development techniques.

CERTIFICATES

01/2024-05/2024

MERN Stack Developer

Certified MERN Stack Developer with comprehensive knowledge and hands-on experience in developing full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in building dynamic, responsive, and user-centric applications, with a strong understanding of front-end and back-end integration. Implementing APIs, managing databases, and optimizing application performance.
