PERSONAL PROJECTS

ChatApp (02/2024 - 02/2024)

- "Designed and implemented a dynamic chat application using the MERN stack (MongoDB, Express.js, React, Node.js). The app included real-time messaging, user authentication, and group chat functionalities. Developed APIs for smooth data exchange and integrated WebSocket for instant communication, enhancing user interaction and engagement

FoodDeliveryApp (03/2024 - 04/2024)

- "Developed a robust food delivery application using the MERN stack (MongoDB, Express.js, React, Node.js). The app featured user authentication, order tracking, and an intuitive UI for seamless user experience. Implemented APIs for efficient data handling and integrated secure payment gateways, contributing to an overall increase in user engagement and transaction security."
